Jaipur is no jaunty city. It is run by two men who are showing their edible fingers to convention.

The true Jaipur is in the same tradition. It has always maintained that the past five years, it has slowly moved into the cool capital of the country. This is visible in the city's art, culture, and in its lifestyle.

The Jaipur Art and Culture

The city is now a haven for the art lover. The Jaipur Art and Culture in the past few years has slowly moved into the cool capital of the country. This is visible in the city's art, culture, and in its lifestyle.

Jaipur is the first planned city in India. It was planned according to the Indian Vedic Mantram.

The plan has changed the face of the city and will be continued in the future.
